PETITION UNDER 37 CFR §1.47(a)

Dear Sir:

Pursuant to 37 CFR 1.47(a) and MPEP 409.03(d), real-party-in-interest, Even Technologies (which holds the assignee of this application - Digital Accelerator Corporation - as a wholly-owned subsidiary company), respectfully states that co-inventor Meng Wang refuses to join the application for patent, and requests that this application be accepted for examination under Rule 47, and that the enclosed Oath/Declaration be accepted without the signature of one of co-inventors Meng Wang.

In brief, and as declared by Leslie Sims, Marketing Manager of Even Technologies, in the enclosed declaration (executed December 06, 2006), the pending specification and Declaration under 37 CFR 1.63 for the above-referenced patent application were presented to co-inventor Meng Wang for review and execution. Meng Wang refused to execute the papers. The enclosed Declaration of Leslie Sims of Even Technologies sets forth a detailed description of attempts made to contact co-inventor Meng Wang regarding the Rule 63 Declaration for the above-referenced patent application.

The instant application is a U.S. National Phase (under 35 U.S.C. §371) of Patent Convention Treaty (PCT) International Application No. PCT/CA2004/000464, having an International Filing Date of March 29, 2004. This U.S. utility patent application, USSN 10/551,359, has the same specification as PCT/CA2004/000464, and was filed on September 28, 2005.

As declared by Leslie Sims (see paragraphs 4 and 6, page 2, of her declaration), co-inventor Meng Wang was provided a copy of the declaration for this U.S. utility patent application, USSN 10/551,359, by MOBILE 1™ messengers at his last known residence, noted below. The letter referenced Canadian Patent Application 2,423,618, the priority document for this application, and requested that Mr. Wang review and sign the Rule 63 declaration and return same to Even Technologies as soon as possible. A copy of that letter and the accompanying shipping request form are attached to Leslie Sims's declaration.

Co-inventor Meng Wang's last known residential address is:

3027 Laurel Street
Vancouver, British Columbia V5Z 3T6
Canada

This also is believed to be Meng Wang's current residential address.

As declared by Leslie Sims (see paragraph 5, page 2, of her declaration), a second copy of the letter was sent by registered mail with Canada Post, on November 20, 2006. A copy of that letter and the accompanying tracking sheet are attached to Leslie Sims's declaration.

As declared by Leslie Sims (see paragraph 7, page 2, of her declaration), as of the date the declaration was signed, no communication or correspondence was received from Meng Wang related to signing the Rule 63 declaration.

Kindly accept this Petition and the enclosed Response to Notification of Missing Requirements with Rule 63 Oath/Declaration executed by all co-inventors, except uncooperative co-inventor Meng Wang, and issue a notice of same.

In the event the U.S. Patent and Trademark office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. **03-1952** referencing docket no. **577132000200**. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.
